INDEX TO VOLUME 37

Anderson, I., and **Hilton, A. J. W.**, The Erdös–Ko–Rado theorem with valency conditions 385

Bonsall, F. F., Decompositions of functions as sums of elementary functions 129

Bruce, J. W., Generic functions on semi-algebraic sets 137

Bunce, L. J., Structure of representations and ideals of homogeneous type in Jordan algebras 1

Davies, E. B., Perturbations of ultracontractive semigroups 167

Dzinotyiweyi, H. A. M., Uniformly continuous functions on some semigroups 11

Fouché, W. L., On the Kummer–Mirimanoff congruences 257

Friedman, Y., and **Russo, B.**, A geometric spectral theorem 263

Giblin, P. J., and **Kingston, J. G.**, Caustics by reflexion in the plane with stable triple crossings 17

Harman, G., A problem in the metric theory of Diophantine approximation 391

Heath-Brown, D. R., Artin's Conjecture for primitive roots 27

Hiller, H., and **Sah, C.-H.**, Holonomy of flat manifolds with $b_1 = 0$ 177

Hilton, A. J. W., *see* **Anderson, I.**

Holt, D. F., and **Plesken, W.**, A_5-invariant 2-groups with no trivial sections 39

Ivić, A., and **Tenenbaum, G.**, Local densities over integers free of large prime factors 401

Jassim, S. A., and **London, R. R.**, On the maximum modulus paths of a certain cubic 189

Jones, G. A., and **Soomro, K. D.**, The maximality of certain wreath products in alternating and symmetric groups 419

Jutila, M., On the approximate functional equation for $\zeta^2(s)$ and other Dirichlet series 193

Kimura, H., *see* **Okamoto, K.**

Kingston, J. G., *see* **Giblin, P. J.**

Kovács, L. G., and **Leedham-Green, C. R.**, Some normally monomial p-groups of maximal class and large derived length 49

Kühnel, W., and **Pinkall, U.**, On total mean curvatures 437

Lawson, M. V., The structure of Type A semigroups 279

Leedham-Green, C. R., *see* **Kovács, L. G.**

London, R. R., *see* **Jassim, S. A.**

McCullough, D., Compact submanifolds of 3-manifolds with boundary 299
Macpherson, H. D., Groups of automorphisms of $\aleph_0$-categorical structures 449
Miatello, I. D., Metrics with non-positive Ricci curvature on semidirect products 309
Morton, H. R., The Jones polynomial for unoriented links 55
Muthuramalingam, Pl., Asymptotic completeness for anisotropic operators by Mourre's theory 315
Okamoto, K., and **Kimura, H.**, On particular solutions of the Garnier systems and the hypergeometric functions of several variables 61
Partington, J. R., B-convexity, superreflexivity and summability 467
Patadia, J. R., and **Williamson, J. H.**, Local theorems for the absolute convergence of lacunary Fourier series on certain groups 81
Pinkall, U., *see* **Kühnel, W.**
Plesken, W., *see* **Holt, D. F.**
Putcha, M. S., Finite semigroups associated with linear algebraic monoids 211
Raghavan, S., On certain identities due to Ramanujan 221
Rhodes, F., Regular mappings of sequence spaces over finite fields II 231
Robinson, P. L., Spinors and isotropes 473
Robson, J. C., and **Small, L. W.**, Orders equivalent to the first Weyl algebra 475
Russo, B., *see* **Friedman, Y.**
Rüttimann, G. T., and **Schindler, Chr.**, The Lebesgue decomposition of measures on orthomodular posets 321
Sah, C.-H., *see* **Hiller, H.**
Schindler, Chr., *see* **Rüttimann, G. T.**
Segal, D., Local and global equivalence of binary forms I: quartics 483
Sekigawa, K., and **Vanhecke, L.**, Symplectic geodesic symmetries on Kähler manifolds 95
Sleeman, B. D., and **Smith, P. D.**, Doubly periodic Floquet theory for a second order system of ordinary differential equations 347
Small, L. W., *see* **Robson, J. C.**
Smith, P. D., *see* **Sleeman, B. D.**
Sohrab, H. H., Pseudodifferential C^*-algebras related to Schrödinger operators with radially symmetric domains 105
Soomro, K. D., *see* **Jones, G. A.**

Tenenbaum, G., *see* **Ivić, A.**
Tomescu, I., On hypergraph colourings 239
Trotter, P. G., Relatively free inverse semigroups 357
Ülger, A., Continuity of weakly almost periodic functionals on $L^1(G)$ 493
Vanhecke, L., *see* **Sekigawa, K.**
Vaughan, R. C., On Waring's problem: one square and five cubes 117
Whelan, E. A., Quasi-commutative principal ideal rings 375
Williamson, J. H., *see* **Patadia, J. R.**
Wlodarczyk, K., Studies of iterations of holomorphic maps in J^*-algebras and complex Hilbert spaces 245
Zimmermann, B., Finite group actions on Haken 3-manifolds 499
